About the Author

Esther Friedberg Karp, MBA

President, EFK CompuBooks Inc.

esther@e-compubooks.com

Esther Friedberg Karp is an internationally-renowned trainer, writer, business consultant and speaker who was named one of the Top 10 QuickBooks ProAdvisors in the world, with the title Top International ProAdvisor.

Based in Toronto, Canada, Esther has the unique distinction of holding ProAdvisor certifications in the United States, Canada and the United Kingdom. She has authored materials and delivered educational and certification courses for Intuit in all those countries, as well as Australia where she conducted live QuickBooks Online training. She has spoken at Scaling New Heights, QuickBooks Connect and other conferences, as well as those of various accounting and professional organizations and written countless articles for Intuit Global.

Esther counts among her clients' companies from around the world, as well as accounting professionals who seek her out on behalf of their own clients for her expertise in various countries' editions of QuickBooks Desktop and Online, and for her talent in customizing QuickBooks usage for different industries.

Esther holds a BSc from the University of Toronto in Actuarial Science and Mathematics, and an MBA in Marketing and Finance from York University's Schulich School of Business.

She can be reached at esther@e-compubooks.com or 416-410-0750.

QUICKBOOKS ONLINE TEST DRIVE

Exercises contained in this handbook can be completed using a QuickBooks Online “test drive” file. The test drive uses a sample company file called Craig’s Design & Landscaping Services. It can be accessed through the following link:

[Craig's Design & Landscaping](#)

You don’t have to create an account or sign in to access the test drive file; just complete the security validation and click **Continue**.

This test drive is designed for you to explore and try out new things without worrying you will break something or make a mistake. It is not designed to retain any changes you make. Once you close this QuickBooks Online test drive company it is completely refreshed, so remember to allow sufficient time to complete each activity. But don’t worry if you have to close the test drive before you are finished! You can always begin again.

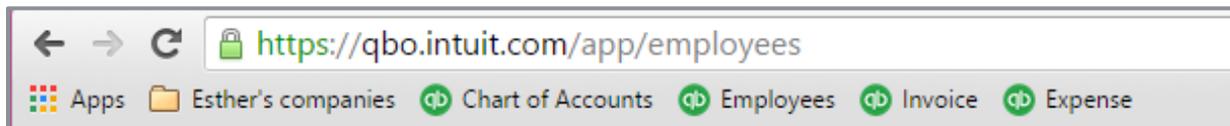

Topic 1: Best Practices

IDENTIFY BEST PRACTICES WHEN USING QUICKBOOKS ONLINE

Browser Tips

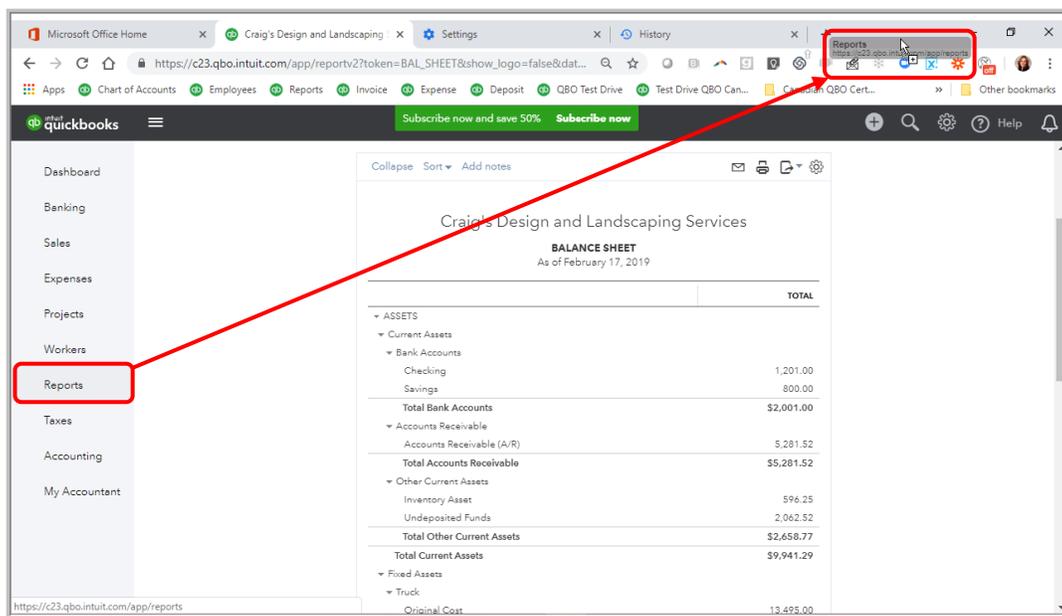

The tips below are based on Google's Chrome browser, but many of them work in other browsers:

- Click a choice in the left navigation bar, Quick Create menu, gear icon or other access points and drag it up to access it in a new tab in the existing browser
- Log in to a QuickBooks Online company (including the test drive company), right-click your browser tab, left-click **Duplicate**. (You can repeat this as many times as you like.) Now you have multiple tabs logged in to the same QuickBooks Online Company. You can then navigate to another access point in QuickBooks Online in one (or more) of the tabs so you have two (or more) tabs open to the same company showing different areas of QuickBooks Online.
- Pull one tab out of the browser window and you can work in QuickBooks Online on two different screens side-by-side. You can work on these two windows independently of each other. Repeat, as needed!
- Chrome allows you to create different users (**Customize** ⓘ → **Settings** → **People**). If you have two or more different QuickBooks Online companies, you can log in to each of them using a different Chrome user and operate each account simultaneously. (Or you can log in using two or more different browsers, such as Chrome, Firefox and Safari, or log in as an incognito user.)
- Log in as a separate Chrome user for your QuickBooks Online companies. Open the screens you use most often and bookmark them (click ★) to create a QuickBooks Online icon bar to be used with multiple QuickBooks companies.
- If a company has special screens you use regularly, create a folder on the Chrome bookmark bar, bookmark those screens and save in the folder

- Right-click the **back arrow** of the browser to display a recent history of the screens you were on previously; left-click the one you want to return to and resume working

- Left-click and drag your selection up to where a new browser tab can be positioned and release it to open a new tab with that selection

- If you are getting unexpected results when working in QuickBooks Online or are having problems logging in, make sure to clear your cache and cookies in Chrome (**Customize**  → **History** → **History** → **Clear browsing data**)
- **CTRL+** and **CTRL -** allow you to zoom in and out quickly

NOTE: This browser functionality works best in a Chrome browser and is useful because many accounting professionals use two (and sometimes three) monitors. (Internet Explorer and Edge also allow the user to right-click a tab and select **Duplicate**. Other browsers, namely Firefox and Safari, do not necessarily have the ability to select Duplicate by right-clicking a tab. However, it is possible to highlight the entire URL of the tab, right-click and select **Copy**, then open a new tab in the same browser window, right-click and select either **Paste** or **Paste & Go**, depending on the browser being used.) All the browsers mentioned do feature the ability to drag a tab off to open in a separate browser window.

Keyboard Shortcut Tips

You may be used to working with keyboard shortcuts when using desktop programs, whether QuickBooks Desktop, Microsoft Word®, Excel® or other programs. There are also keyboard shortcuts when working in QuickBooks Online. Some common keyboard shortcuts can be found by clicking **Ctrl + Alt + /**. If you're on a Mac, use **Option + Ctrl + /**. Notice that the same shortcut key acts differently depending on the screen you are in.

For example, **Ctrl + Alt + c** opens the Customer Center, if you are *not* in the middle of creating a transaction. If you are in the middle of creating a transaction, it cancels that transaction.

These shortcuts indicate what function you can fulfill quickly in a Windows environment by clicking on **Ctrl + Alt + letter** (the list of letters is in the chart below). If you're using a Mac, substitute **Command + Option + letter**.

Your Company ID is **1935 1484 6511 734**

H23
Keyboard Shortcuts

To take advantage of shortcuts, simultaneously press [ctrl] and [alt or option] and one [key from the list below]

REGULAR PAGES - HOMEPAGE, CUSTOMERS, AND SO ON		TRANSACTION PAGES - INVOICE, EXPENSE, AND SO ON	
SHORTCUT KEY	ACTION	SHORTCUT KEY	ACTION
i	Invoice	x	Exit transaction view
w	Check	c	Cancel out
e	Estimate	s	Save and New
x	Expense	d	Save and Close
r	Receive Payment	m	Save and Send
c	Customers	p	Print
v	Vendors		
a	Chart of Accounts		
l	Lists		
h	Help		
f	Search Transactions		
d	Focus the left menu		
? or /	This dialog		

This screen is also one place you can find your Company ID, which you might need if you have to call technical support.

Other keyboard shortcuts you may be interested in are the date shortcuts. When you are in a date field, you can move forward and back a day at a time by using your **+** and **-** keys. To go to today, use the letter **t**. Here are some other date shortcuts:

- **w** for first day of the week
- **k** for the last day of the week
- **m** for the first day of the month
- **h** for the last day of the month
- **y** for the first day of the year
- **r** for the last day of the year

Do you see the pattern? Use the first letter to go to the beginning and the last letter to go to the end of the time period related to the date that is currently displayed.

Also, the ESC key will cancel the current transaction being entered/edited.

Calculations

There's a simple calculator available directly on the rate or amount field of a transaction. Enter your first number then use your keyboard to add (**+**), subtract (**-**), multiply (*****) or divide (**/**). The beauty of this feature is the results are entered directly into the transaction by moving to the next field, either with your mouse or the **Tab** key; no retyping of numbers is necessary.

The screenshot displays the 'Check #71' entry form in QuickBooks Online. The form includes fields for Payee, Bank Account, Mailing address, Payment date, and Check no. The amount field is currently set to \$0.00. A calculator is integrated into the amount field, showing the calculation '2+8' and the result '10.00'. The calculator interface is highlighted with a red box, and the result '10.00' is also highlighted with a red box. The calculator interface includes a 'Help' icon, a 'Print later' checkbox, and a 'Enter Text' dropdown menu.

AMOUNT	BILLABLE	TAX	CUSTOMER
2+8	<input type="checkbox"/>	<input type="checkbox"/>	Enter Text

AMOUNT
10.00

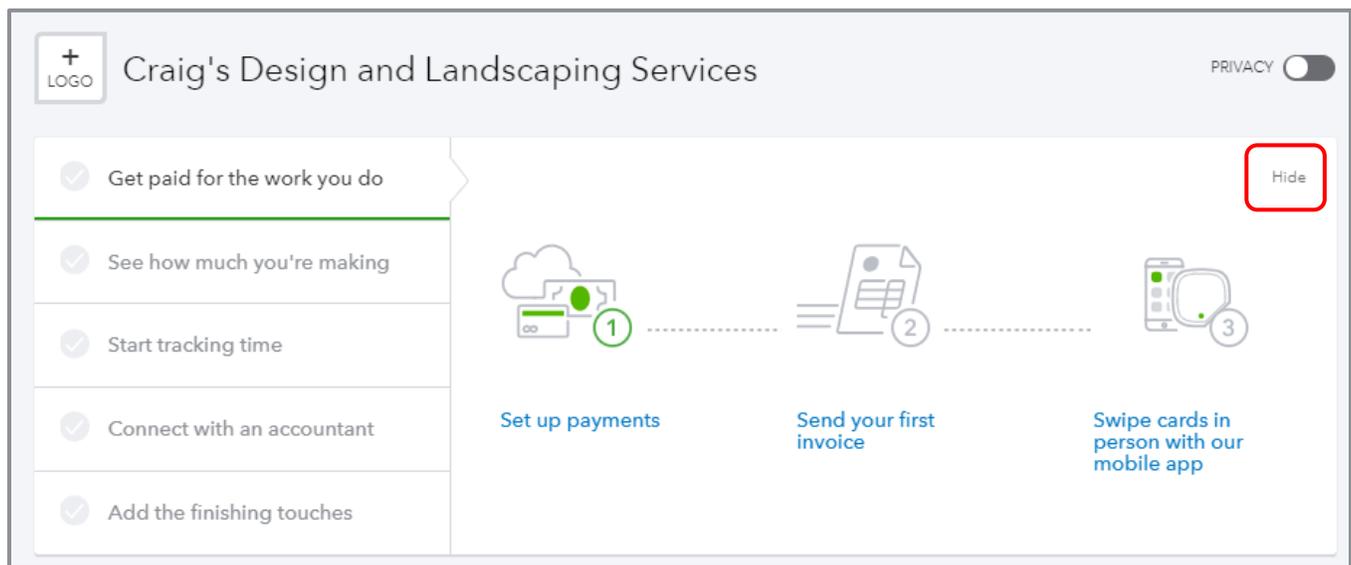

Topic 2: Navigate

In this topic, we discuss how to navigate around QuickBooks Online. It's important to understand the interface and to know the options for entering information so you can figure out the correct workflow for your business.

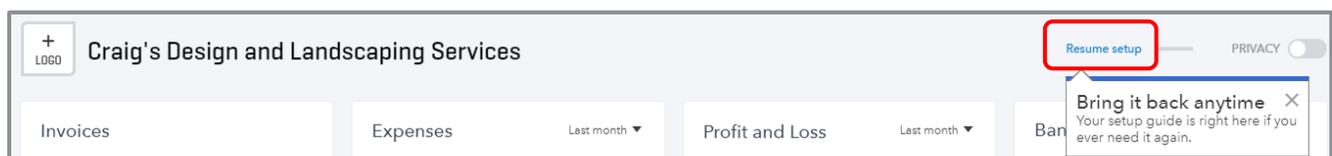

COMPANY HOME PAGE

When you log in to QuickBooks Online, the Home page is the first screen that appears. The top of the screen shows the name of the QuickBooks Online company (helpful when you are running more than one company in QuickBooks Online).

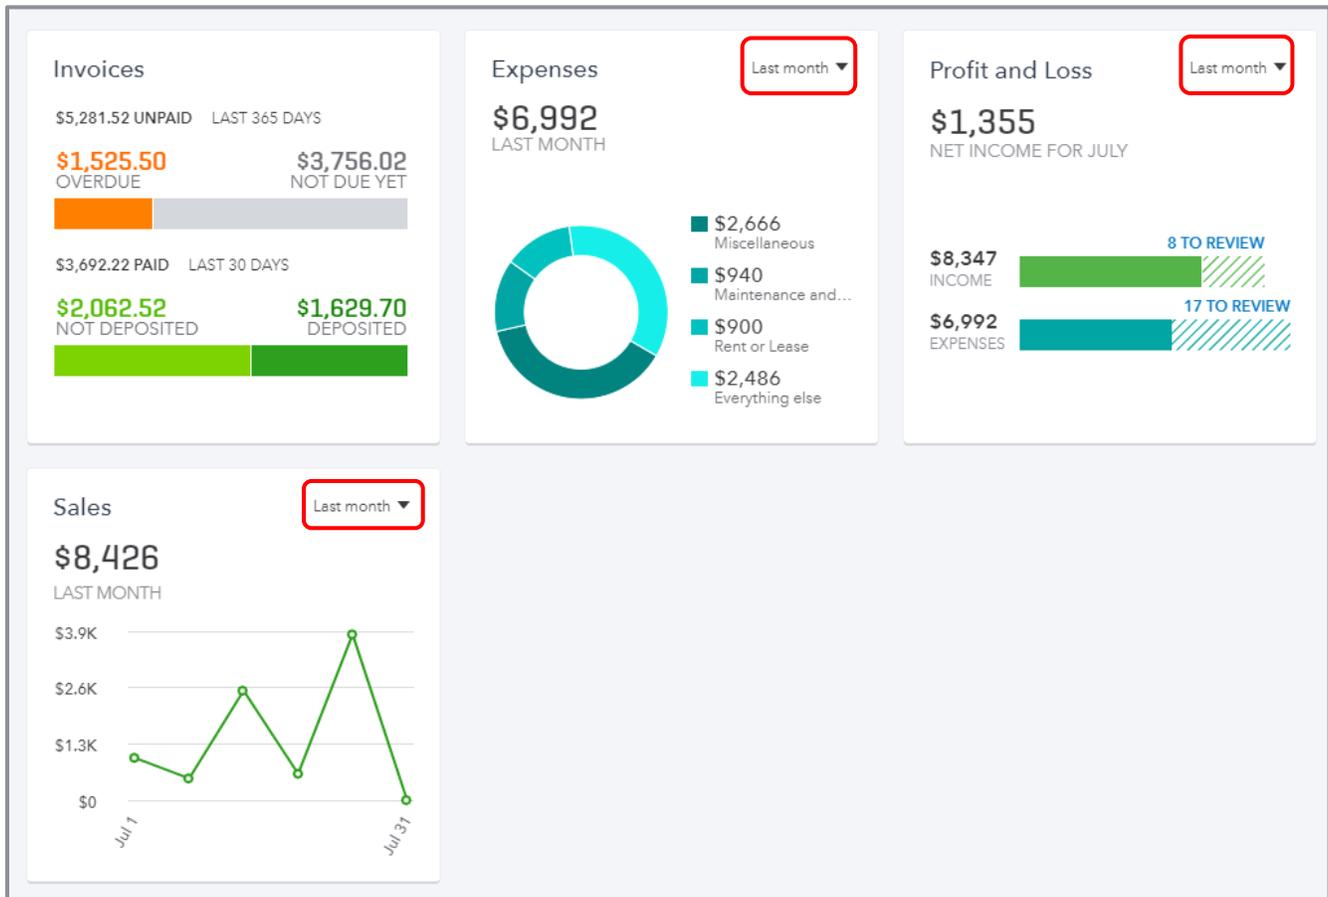

You'll see a Setup guide at the top of the Home page which can guide you through such steps as invoicing and connecting with an accountant. Clicking **Hide** will collapse this guide so you have more screen real estate available on this Home page.

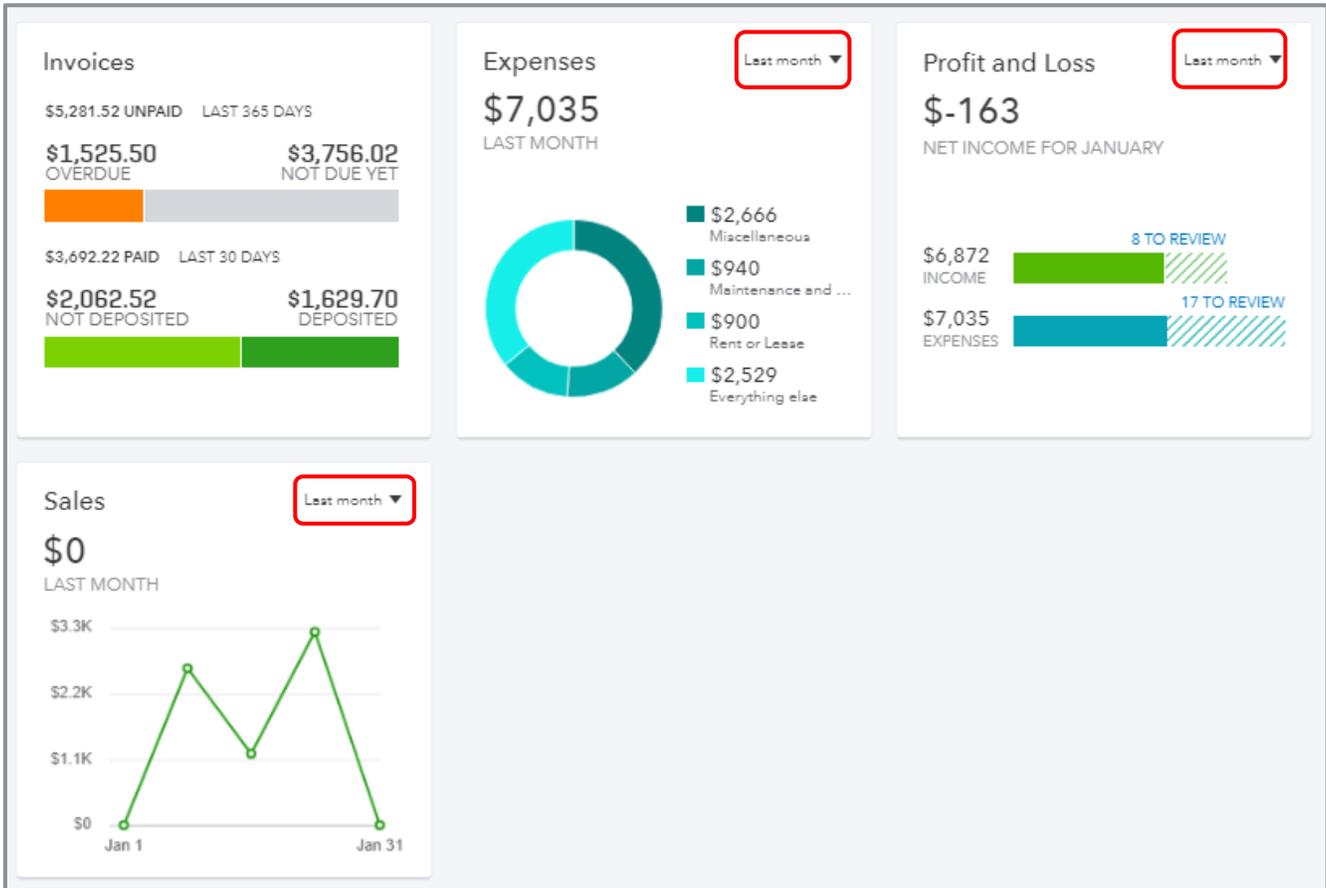

Once it's collapsed you can click **Resume setup** to expand the setup guide again.

Below the Setup guide, you'll see several bar charts and graphs related to the performance of your company. You'll see Invoices receivable, including those that are overdue. You'll also see invoices that were paid in the last 30 days, including those that were not yet deposited. You'll also see a breakdown of major expense categories, income and expenses on the Profit and Loss, as well as a Sales graph. The time frames on these last three graphs start out at Last month but can be changed by clicking the **drop-down** arrow to choose another date range. As you hover over any of the sections of these graphics, you will get more information about that section. You can drill down to get either a detail report related to totals or continue to get to an actual transaction.

On the right side of the Home page is a list of bank and credit card balances and, if those accounts are connected with the banks, you get information as to current bank or credit card balance versus the QuickBooks Online balance for each account, and how many transactions have been downloaded and not matched or entered into QuickBooks Online. There is also a direct link to connect a bank or credit card account to its QuickBooks Online counterpart, as well as a drop-down to take you directly to the register for the bank or credit card account of your choice.

This section of the Home page acts as a reminder to review the bank feeds on a timely basis. You'll learn more about the Banking Center later in this training.

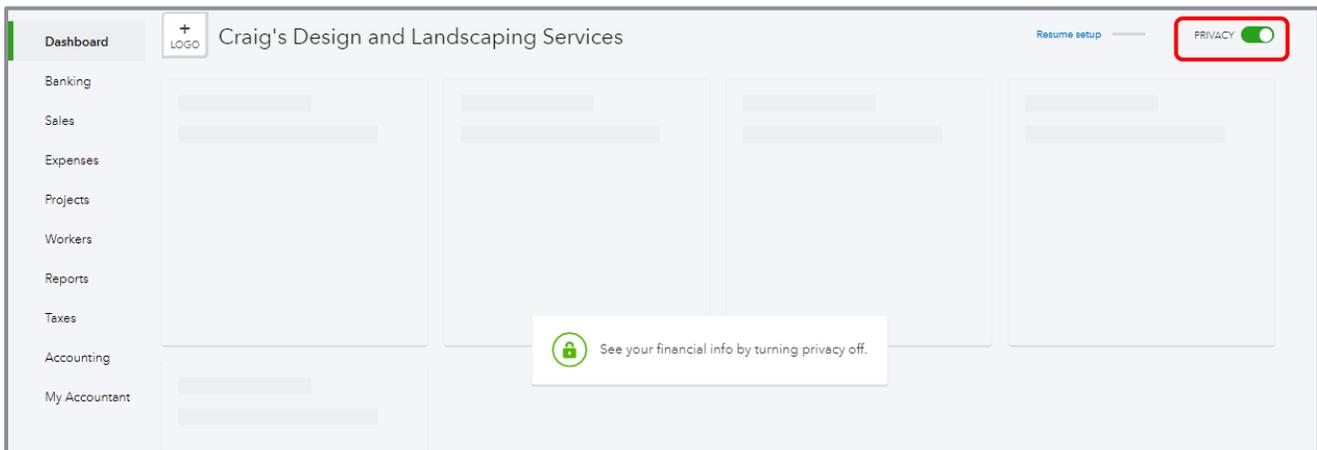

Bank accounts

Visa

[Connect accounts](#) [Go to registers](#) 

At the top right corner of the Home screen is a switch called Privacy. When you activate it, QuickBooks hides all the financial numbers on the screen to protect this sensitive information from anyone walking by your computer. This is very helpful if you're working in a public place such as an airport or a coffee shop.

On the left side of any QuickBooks Online company you'll find the navigation bar. You will learn more about this as you go through this module.

Because the Home page automatically opens when you open QuickBooks Online, it directs the small business owner to review key metrics about their business. This is a good thing. Too often, small business owners and staff enter transactions but don't really look at their results until tax time. And that could be too late.

CUSTOMER CENTER

Click the **Sales** tab in the navigation bar, then the **Customers** sub-tab (either in the horizontal list of tabs or in the pop-up list of tabs) to open the Customer Center.

CUSTOMER / PROJECT / COMPANY	PHONE	OPEN BALANCE	ACTION
<input type="checkbox"/> Amy's Bird Sanctuary Amy's Bird Sanctuary	(650) 555-3311	\$239.00	Receive payment
<input type="checkbox"/> Bill's Windsurf Shop Bill's Windsurf Shop	(415) 444-6538	\$85.00	Receive payment
<input type="checkbox"/> Cool Cars Cool Cars	(415) 555-9933	\$0.00	Create invoice

- The colorful money bar at the top of this center is a visual representation of potential revenue in the form of unbilled estimates and time and expenses, plus receivables (including overdue invoices), as well as invoices paid in the last 30 days. You can drill down on any color block of the money bar to get to the underlying list and, ultimately, to transactions to review, edit or delete.
- The New Customer button in the top right corner creates a new customer in the Customer Center, as opposed to creating one on the fly in the Customer field of a transaction, which you can always do
- You can also click the **drop-down** next to **New Customer** and choose to **Import customers** here
- The visible columns of the Customer Center can be set by selecting the **grid gear** icon (in the top right corner of the customer list, above the Action column) to show the address, email and/or attachments column, as well as how many rows of the Center to display on a page and whether to include inactive customers. This setting is "sticky," which means the next time you open the Customer Center, QuickBooks Online will remember your preference.
- Click the **customer name** to view or edit the customer details (i.e., profile) for them, see a list of transactions or create new transactions

- Click the **envelope** icon next to a customer name in the Customer Center to launch your native email client to send them an email
- Above the Customer list, you can easily find a customer or filter the list by typing part of the name in the search box
- You can sort the customer list (or a transaction list for a customer, if you've clicked on the customer name or a color block of the money bar) forward and backward by several parameters simply by clicking the **column header** for that parameter, either once or twice, to specify sorting forward or backward
- Once in the transaction list for a customer (or if you've clicked **Open Invoices** or **Overdue Invoices** in the money bar), you can create invoices, receive payments, send a reminder or an invoice link, print a packing slip, print a statement or copy a sales transaction for an individual customer under the Actions column
- Clicking the **Start invoice** hyperlink next to an entry (any entry which can lead to invoices such as an estimate, a delayed charge or a time activity) will open an invoice populated with that entry; any additional entries available to be added to the invoice will be in the drawer to the right of the invoice.

Customers [Clear Filter / View All](#) Customer types New customer

Unbilled Last 365 Days **\$362** 1 ESTIMATE

Unpaid Last 365 Days **\$874** 4 UNBILLED ACTIVITY

Overdue **\$1,526** 10 OVERDUE

Open Invoices **\$5,282** 20 OPEN INVOICES

Paid **\$3,136** 12 PAID LAST 30 DAYS

Batch actions

<input type="checkbox"/>	CUSTOMER / PROJECT / COMPANY	PHONE	OPEN ESTIMATES	ESTIMATE AMOUNT	ACTION
<input type="checkbox"/>	Sonnenschein Family Store Sonnenschein Family Store	(650) 557-8463	1 Open estimate	\$362.07	Start Invoice

< First Previous 1-1 Next Last >

- You can perform batch actions related to statements and email for more than one customer by placing checkmarks in the boxes next to the appropriate customers in the Customer Center and choosing from the **Batch Actions** drop-down menu

VENDOR CENTER

Click the **Expenses** tab in the navigation bar then the **Vendors** sub-tab (either in the horizontal list of tabs or in the pop-up list of tabs) to open the Vendor Center.

VENDOR / COMPANY	PHONE	EMAIL	OPEN BALANCE	ACTION
<input type="checkbox"/> Bob's Burger Joint			\$0.00	Create bill
<input type="checkbox"/> Books by Bessie Books by Bessie	(650) 555-7745	Books@intuit.com	\$0.00	Create bill

The Vendor Center is like the Customer Center, except it's related to vendors, not customers.

- The colorful money bar at the top of this center relates to potential expenses (open purchase orders), unpaid and overdue bills and what has been paid in the last 30 days
- If you click any of these color blocks, QuickBooks will display the underlying list of transactions that pertain to that section; if you keep drilling down, you can ultimately drill down into individual transactions to review, edit or delete
- Although you can always create a new vendor on the fly in transactions by simply typing a new vendor name in the Vendor field, the New Vendor button in the Vendor Center also allows you to create a new vendor
- If you click the **drop-down** next to New Vendor, you can import vendors here
- The Prepare 1099s button allows you to prepare 1099s
- The editing columns, individual transactions, batch transactions, emailing and viewing the vendor in the Vendor Center work the same as in the Customer Center

VARIOUS TRANSACTIONS TABS

There are four main ways to enter transactions in the Transactions tab of the left navigation bar: Banking, Sales, Expenses and Accounting. (And for those who have enabled Projects, there is a fifth way. You can enter transactions via the Projects tab.)

- **Banking** - This opens the Banking Center. If you have connected your bank and/or credit card accounts to QuickBooks, you'll see those accounts listed across the top of the page, as well as a list of transactions that need to be either matched or added to QuickBooks. You will learn about that in Topic 4 of this training.

- **Sales** - Click **Sales** in the left navigation bar, then **All Sales** to open the Sales Center where there is a Sales money bar that shows potential revenue, unpaid/overdue invoices and what has been paid in the last 30 days
 - As opposed to the Customer Center which shows a Customer list, the Sales Center shows a list of transactions that can be filtered
 - New transactions can be easily added from the top right corner of the screen by clicking **New transaction**
 - Next to the New transaction button there is an Import Transactions button which allows you to import sales transactions from Square, if you have that set up
 - The Action column shows suggested next steps, as well as other choices related to that transaction in the drop-down menu
 - As in the other centers, you can check multiple transactions and perform batch actions of printing or sending

The screenshot displays the 'Sales Transactions' page in QuickBooks Online. At the top, there are navigation tabs for Overview, All Sales, Invoices, Customers, and Products and Services. The 'All Sales' tab is active. Below the navigation, there is a summary bar with four colored boxes representing different transaction categories: Unbilled Last 365 Days (\$362, 1 ESTIMATE), Unpaid Last 365 Days (\$874, 2 UNBILLED ACTIVITY), Overdue Last 365 Days (\$1,526, 10 OVERDUE), and Paid Last 365 Days (\$5,282, 20 OPEN INVOICES). To the right of the summary bar, there is a 'Paid' section showing \$3,136 (12 PAID LAST 30 DAYS). Below the summary bar, there is a table of sales transactions. The table has columns for DATE, TYPE, NO., CUSTOMER, DUE DATE, BALANCE, TOTAL, STATUS, and ACTION. The first four rows of the table are visible. The 'ACTION' column contains links like 'Create invoice' and 'Receive payment'. On the right side of the page, there is a 'New transaction' dropdown menu that is open, showing options like Invoice, Payment, Estimate, Sales Receipt, Credit Memo, Delayed Charge, and Time Activity. There are also icons for print, share, and settings.

DATE	TYPE	NO.	CUSTOMER	DUE DATE	BALANCE	TOTAL	STATUS	ACTION
02/17/2019	Charge	1	Amy's Bird Sanctuary	02/17/2019	\$0.00	\$124.00	Open	Create invoice
02/17/2019	Estimate	1001	Sonnenschein Family ...	02/17/2019	\$0.00	\$362.07	Pending	Create invoice
01/22/2019	Invoice	1035	Mark Cho	02/21/2019	\$314.28	\$314.28	Open	Receive payment
01/22/2019	Invoice	1037	Sonnenschein Family ...	02/21/2019	\$362.07	\$362.07	Open	Receive payment

- **Expenses** - Click **Expenses** in the left navigation bar, then **Expenses** to see a list of recent expense transactions which, like other centers, can be easily filtered
 - Click a transaction in the list to open the original transaction
 - The types of transactions that can be entered from here are: bills, expenses, checks, purchase orders or vendor credits
 - You can also print checks from this screen

The screenshot displays the 'Expenses' section of the QuickBooks Online interface. On the left is a navigation menu with 'Expenses' selected. The main area is titled 'Expense Transactions' and includes a 'Print Checks' button and a 'New transaction' dropdown menu. The dropdown menu is open, showing options: Bill, Expense, Check, Purchase order, and Vendor Credit. Below the menu is a table of transactions with columns for DATE, TYPE, NO., PAYEE, CATEGORY, and TOTAL.

DATE	TYPE	NO.	PAYEE	CATEGORY	TOTAL
02/16/2019	Credit Card Expense			Automobile	\$34.00
02/05/2019	Credit Card Credit			Checking	\$-900.00
02/03/2019	Credit Card Expense		Squeaky Kleen Car Wash	Automobile	\$19.99
01/28/2019	Credit Card Expense		Hicks Hardware	Job Expenses:Job Materials:C	\$42.40
01/27/2019	Credit Card Expense		Squeaky Kleen Car Wash	Automobile	\$19.99
01/27/2019	Credit Card Expense		Bob's Burger Joint	Meals and Entertainment	\$18.97
01/25/2019	Cash Expense		Tania's Nursery	Job Expenses:Job Materials:F	\$-23.50

- **Chart of Accounts** - Click **Accounting** in the left navigation bar, then **Chart of Accounts** (you may also have to click **See your Chart of Accounts**), to see a list of your general ledger accounts
 - You can double-click the account or select **View register** to open the register for any balance sheet account (except Retained Earnings)
 - If you click the **drop-down** next to **Add check** in the top left corner of a bank account register you've opened, you can add many types of transactions that affect a bank account:
 - Check
 - Deposit
 - Sales Receipt
 - Receive Payment
 - Bill Payment
 - Refund
 - Expense
 - Transfer
 - Journal Entry
 - The types of transactions available from the drop-down will vary depending on the type of balance sheet account being viewed in the register

Bank Register Checking Bank Balance \$-3,621.93 ENDING BALANCE \$1,201.00 Reconcile

- You can select **Run report** to view an Account QuickReport for any Profit and Loss account

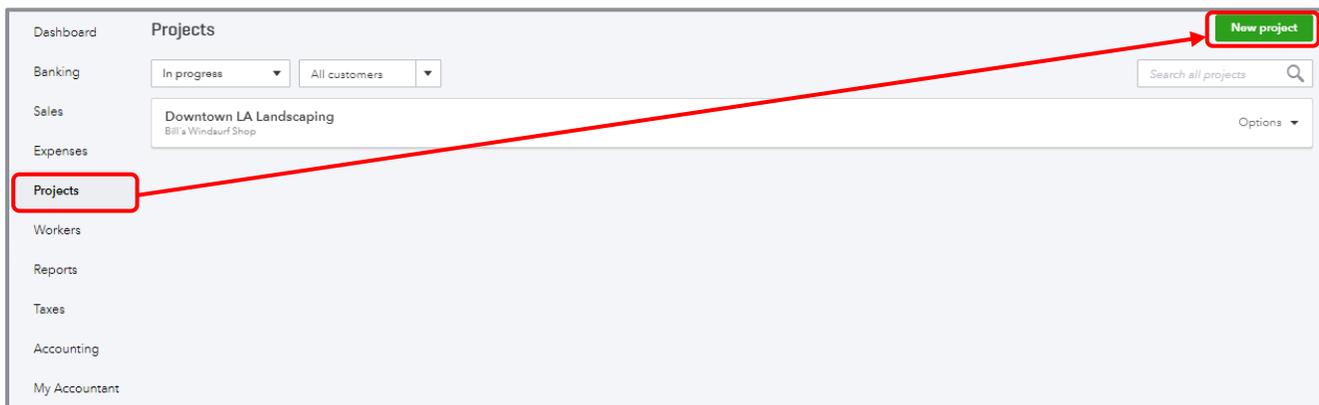

To summarize, the Navigation bar, in general, and the various Transactions tabs specifically, (Banking, Sales, Expenses and Accounting, and Projects, if this feature is enabled) are places to go to enter transactions.

However, there is one other place to launch all transactions and we will cover it next.

- **Projects** - If the Projects feature in QuickBooks Online Plus has been enabled, you can launch transactions related to a project from the Projects area of the left navigation bar. (You will not see the Projects tab in the left navigation bar unless this feature is enabled by clicking the **gear** icon → **Account and Settings** → **Advanced** → **Projects**.)
 - Click **Projects** in the left navigation bar. If there are no pre-existing projects, click **Add your first project**.

- If there are pre-existing projects and you wish to add one, click **New project** in the top right corner

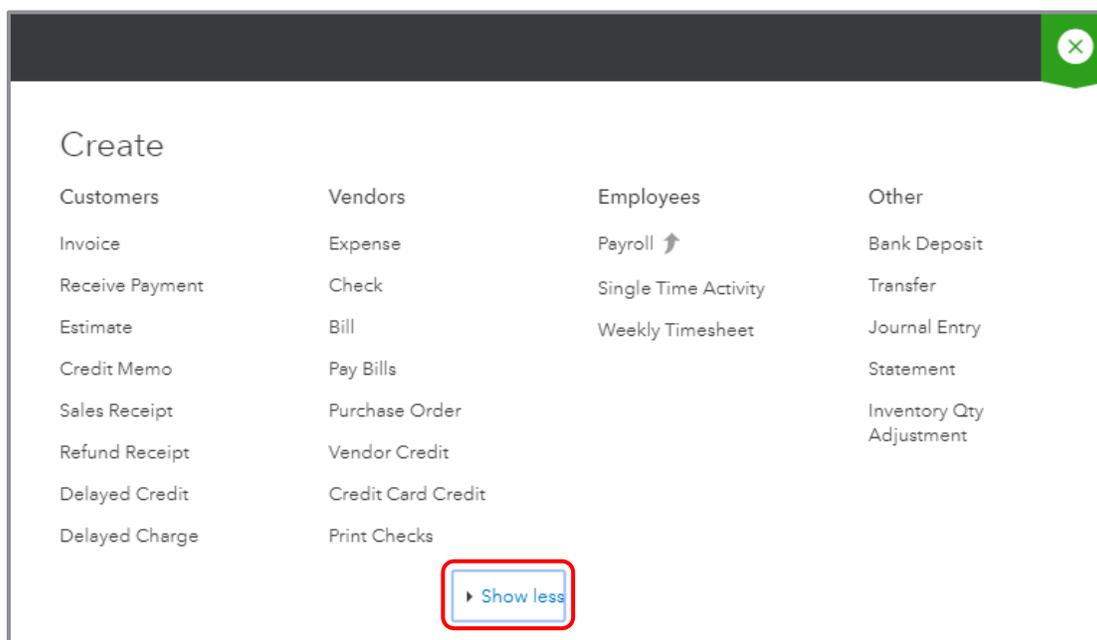

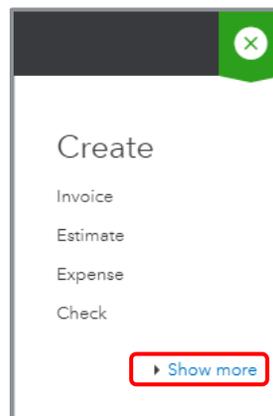

- If you wish to add a transaction to a pre-existing project, click the **project name** in the list of projects, then click **Add to project**. You can add any of the following transactions to the chosen project: Invoice, Receive payment, Expense, Estimate, Time entry, Bill, and Purchase order.

The screenshot displays the QuickBooks Online interface for a project named "Downtown LA Landscaping". The left sidebar contains navigation options: Dashboard, Banking, Sales, Expenses, Projects, Workers, Reports, Taxes, Accounting, and My Accountant. The main content area shows the project details, including "Bill's Windsurf Shop" and "In progress" status. A dropdown menu is open, showing options to add transactions to the project: Invoice, Receive payment, Expense, Estimate, Time, Bill, and Purchase order. The "Add to project" button is highlighted with a red box, and a mouse cursor is pointing at it. Below the dropdown, there are three project reports: "Project profitability", "Nonbillable time", and "Unbilled time and expenses", each with a "View" link.

QUICK CREATE

The Quick Create icon is at the top right of the QuickBooks Online page. It's the **+** key that spins into an **X** when you click it. This is your one-stop shop for creating new transactions.

There are two views of Quick Create. There's a condensed view that just shows the common transactions of Invoice, Estimate, Expense and Check, and a Show More view that lists all transactions in QuickBooks sorted by the different areas of the company: Customers, Vendors, Employees and Other. The choice of view is sticky; QuickBooks Online remembers which view you prefer and offers it to you the next time you click the **Quick Create** button.

Course Conclusion

You have just covered *Course 2 - Navigate QuickBooks Online*. This course has been developed to help you train your clients on how to use QuickBooks Online successfully.

By completing this module, your client should understand:

- Best practices in QuickBooks Online
- How to navigate around QuickBooks Online
